

The Equation Broke

PDF/DOCX/HWPX Conversion with Editable Equations

IDEAINNOV

1/2

ideainnov.com/#run

1

Nailed it in Word!

Forty equations, twelve tables

2

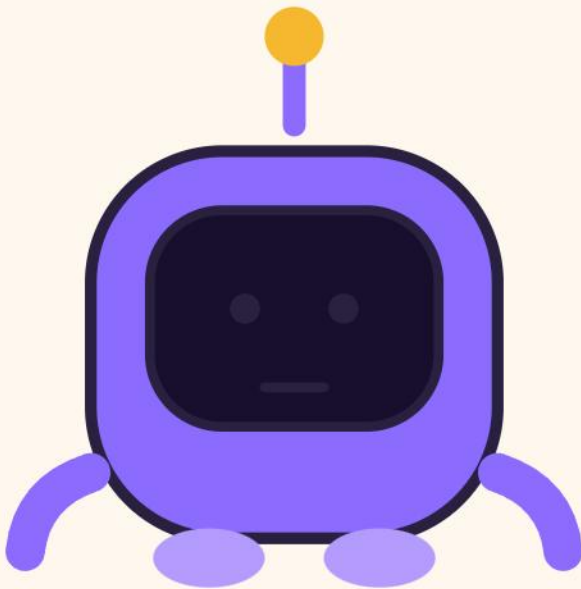

Opened it in HWP... everything broke.

Equations became images, tables scattered

3

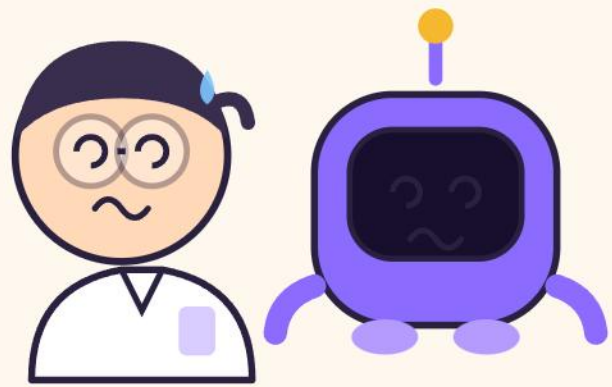

That's our most common complaint.

4

Do I retype all of it?

No. Just upload it.

The Equation Broke

PDF/DOCX/HWPX Conversion with Editable Equations

IDEAINNOV

2 / 2

ideainnov.com/#run

5

Equations move over as editable objects.

OMML preserved - 47 formats, any direction

6

Table layout and styling survive too.

Figures pulled out of the PDF and reinserted

7

I clicked it... and it edits!

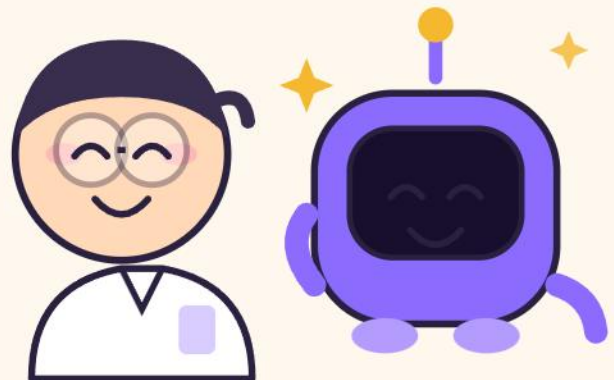

An equation object, not a picture

8

Word and HWP don't scare me now.

Split very large files and send them in parts.
